Easy air release application to flat surfaces like sign panels, graphic boards, painted metal and wood. Grey adhesive offers excellent block-out properties.

Key Features & Benefits

- Finish: Gloss.
- Expected outdoor durability up to 2 years under normal conditions.
- Adhesive Permanent grey solvent/acrylic.
- Double Coated PE embossed release liner, offers improved stay-flat properties.
- Final tack 48 hours.
- Compatibility: Use with Solvent, Eco, UV and Latex printers. (Pretest is always recommended.)

Properties: The product offers a Gloss print surface and grey acrylic adhesive.

Handling: Avoid touching material or introducing dust and dirt on to print face. This can cause anomalies and artifacts when printed. Always store unused material wound tight in original packaging.

Printing: Suggested Media Setting Self Adhesive Vinyl. Suggested maximum ink load is 300% depending on printing platform and RIP software. Make sure ink is dry when it reaches the take-up reel. An external dryer or heat lamp will accelerate drying. For best results optimize media feed and bi-directional calibrations. *540-720 dpi, 8 pass, Bi direction offers a good balance between quality and speed (suggested heaters 40-45c).*

Installation: Product offers Air Egress technology resulting in a fast, bubble free application. Product is best for flat surfaces like sign panels.
